

MULTIMEDIA competition

Secure Your Future 2015

SPACE is the FUTURE

Contribute to a safer society and be eligible to win an amazing prize!

What can
satellite data
contribute to the
security of critical
infrastructure?

Interested in the Challenge? For more information
visit the website www.secureyourfuture.eu

(A) Come up with a new or improved satellite data application that strengthens the security of vital infrastructures (e.g. the electricity grid)

(B) Come up with a new or improved solution for emergency services that enables them to efficiently assess situations in which their help is needed

- Submissions possible until November 1st
- Award ceremony: November 2015
